Re: Scholarship for academically qualified students.

Bio-Shine a 30-year-old Janitorial Supply Company located in central NJ is privileged to contribute to the Newark Board of Education scholarship fund. Since inception, Bio-Shine has been a leader in green sustainable solutions to help keep custodial engineers safe from the bi-products of harsh cleaning solutions and supplies. Our commitment to sustainability is evident by our 100% solar efficient, 27,000 sq. ft. corporate distribution center.

The covid pandemic has caused many hardships throughout the world. It is only fitting that those who were blessed enough to prosper through these unprecedented times give back to communities who need it most.

We are proud to be able to assist 10 academically qualified students with a \$10,000.00 scholarship to follow their dreams. Bio-Shine salutes those students whose passion is to continue their higher education becoming leaders in industry and innovation in the years to come. We hope this scholarship donation will further inspire others to donate allowing the next generation of students to follow their dreams of higher education.

All the best from the Bio-Shine Team.

Respectfully,

David Matisoff
Co-Owner of Bio-Shine

Distributors of cleaning supplies that promote a **sustainable** future.
